

Adur & Worthing council are coordinating support for vulnerable people.

They have set up a web form which people can fill in or someone can fill it in on their behalf. There is a phone line as well but they are asking for this to only be used by anyone who can't use the internet as they have minimal resource to answer calls.

The web form goes through a series of welfare questions and once complete, will be passed to a local team of responders who will contact them to offer whatever support they need.

If you have staff who are able to go through the form with people and submit it for them, that is the most helpful option. If not, you can email the weblink to them. Please, please avoid giving out the number if at all possible otherwise it won't cope.

This is the link to the web form <https://www.adur-worthing.gov.uk/coronavirus/community-support/>

This is the information being publicised and is on the website.

This is the
information that is bei

In addition - people in the most vulnerable group (those that had a letter) are being supported by West Sussex County Council. If you have a patient who thinks they should be in that group but they did not get a letter, they can register as 'extremely vulnerable' via this link
